SPECIFICATION SHEET

TITAN XG60

DESCRIPTION

The Titan XG60 is custom engineered to fit in the smallest of crawl spaces or living areas. Weighing in at a mere 40 lbs. and only 12" in height, the XG60 is the preferred machine for compact areas. Despite its space-saving design, the unit can easily maintain the perfect humidity in an area up to 8,000 ft³. The small but mighty XG60 produces a powerful 250 CFM at an efficient 2.53 L/kWh. This impressive machine can also be customized to meet your needs with multiple upgrade options including ducting, filters, and remote control. Whether you're facing too much moisture, unwelcome pests or nasty mold, the Titan XG60 is the ideal dehumidifier for your application.

FEATURES

- Lightweight
- Energy Star Listed
- LCD Display
- Optional Remote Control
- Electronic Defrost
- Easy to Maneuver
- Extremely Compact
- Multiple Ducting Options

TECHNICAL DATA

Rated Condensate Capacity (80°F, 60%)	60 PPD	Sound Level	52 dBA
Rated Condensate Capacity (90°F, 90%)	120 PPD	Drain Pipe Connection	12" Tube
COP	2.53 L/kW/h	Coverage Area	8,000 ft ³
Refrigerant	R410A	Power Cord	10'
F.L.A. at Rated Conditions (80°F, 60%)	3.6A	Operating Temperature Range	33-105°F
Airflow @ 0.00" S.P.	250 CFM	Operating Relative Humidity Range	35-95%
Inlet Filter	Washable	Weight	40 lbs.
Supply Duct	6" Collar	Dimensions (L X W X H)	18" x 12" x 12"
Return Duct (Optional)	9" Collar	Compressor Warranty	5-Years
Digital Control	Yes	Basic Parts Warranty	1-Year
